Phase 1  
**\$15,000**  
Complete

With your support we're enabling access to clean drinking water for everyone in the villages of Adexor and Adexor-Kpodzi, Ghana, using simple rainwater harvesting technology.

We're almost there! Thanks to you, we have raised \$40,000 of our \$50,000 goal. We need your help to raise the last \$10,000. **Help us fill their glass.**
